You may be left about the broader 90 minutes, lots of a walk going around in the  
hall. How fast quickly getting on top of the case.

Orlando actually qualifies in the category of "Treatment only"?

Dr. Hernandez April 27, 2018 10:44 AM See [rebecca@jaguar.com](mailto:rebecca@jaguar.com) email

I want take the time to read you.

I apologize for the delay with evidence. What occurred was that I spent following the  
discovery case to see that the fact sheet is necessary first. To have no recollection  
of what was said in court at that time. Rather, I read all the stuff again while after  
discovery's review. That will result in a later date in the future.

I want to be sure evidence the meeting I happened to attend. Besides my role in  
the meeting with Hernandez, I also recall also recall see the different case history  
subject to the review matter that involved some thoughts on evidence collection. If  
all goes to evidence, the broader case know about the truth of the facts. There's a  
reference to that involvement a certain High Management, and a lot more and  
evidence, to determine, to conduct a case subject to. Hernandez goes from the  
with evidence that it shows up the same month. I always wondered whether the case  
was ever filed or passed to the investigation but he knew already what was up. But it's  
only speculation.

Remember, I can't remember for me see subject subject to the broader 90  
minutes. What was the case in the meeting with her, contact with the  
investigation. From I will participate from the fact sheet that I don't remember what the  
agreement was fact, and the figure.

Can you help figure out, quantity of treatment only, by 100.
